- SQL(PostgreSQL)
- Git

PROJECTS

Modular Assembler
- Collaboratively developed a Modular Assembler with a team member, demonstrating strong teamwork, programming, problem-solving, and memory management skills.
- Created a versatile assembler capable of processing assembly code, handling macros, and producing executable output files.
- Utilized C programming language, data structures, and algorithms for effective development.
- Developed algorithms for macro processing, error handling, and file input/output operations.
- Gained proficiency in memory allocation, deallocation, and optimization for resource-efficient software development.

WORKING EXPERIENCE

Sales representative
MEMO GLOBAL   2022
- Developed and maintained strong relationships with clients, understanding their unique needs and providing tailored solutions.
- Utilized data-driven sales processes, leveraging analytics and CRM tools to monitor performance metrics, identify areas for improvement, and drive revenue growth.
- Successfully promoted and sold immigration solutions and consultancy services to a global client base.
